Manuscript preparation (Guidelines for Contributors)

The Africagrowth Agenda is a quarterly magazine, which publishes brief high quality articles/summaries (of not more than 5 pages) covering development issues in Africa. AGA publishes articles, primarily, for practitioners and policy maker's audience. Authors should, therefore, avoid including statistical/mathematical equations into their articles if at all possible.

(1) **Manuscripts** should be typewritten using double-spacing throughout, including tables, references, and footnotes. Assemble sections in the following order

- Title page
- Introduction
- Body of the paper
- Conclusion
- References

The length of the paper must not be more than 5 pages long- Including Tables & Figures, References and Appendix

(2) One electronic copy in Microsoft Word Format should be sent to Dina Potgieter at dina@africagrowth.com

(3) The **Title page** should include the name(s) of the author(s), and institutional affiliation for each author. It should also include name, address, telephone number and email of the author responsible for correspondence.

(4) **Footnotes** should be kept to a minimum and placed at the bottom of the page on which they are cited. Do not number author affiliations or acknowledgements of support or assistance.

(5) **Tables and Figures** should be placed on the page on which it is first referred to or as close as possible to such page and should be numbered sequentially with Arabic numerals. Each should be designed to fit on a page without undue compression. Authors may use a "landscape" page setup for tables.

It should be as self-explanatory as possible, incorporating any necessary descriptive material in an unnumbered footnote.

Tables - The table number and heading are displayed **above the table**, in bold typed and left aligned.

Figures - All explanatory material should be included in the legend and not in the figure itself. The figure number and heading are displayed **below the figure**, in bold typed and left aligned.

(6) Headings are numbered and formatted as follows:

1. MAIN HEADING (bold)

1.1 Sub Heading (bold)

1.1.1 Minor Heading (italics)

(7) References: the Harvard method must be used, namely short references in the text and more detailed references arranged in alphabetical order at the end of the manuscript (follow the guidelines below).

References in the text: Omit the page numbers if the entire publication is referred to (Cane, 1980); or ... according to Cane (1987b). If a quotation is cited, (Abraham, 1985: 2).

The list of references should be double-spaced, in unnumbered alphabetical format and should begin on a new page.
